

# Dr Kenneth Y. WERTHEIM

## SUMMARY

---

CITIZENSHIP: British citizen  
EMAIL: [kywertheim@protonmail.com](mailto:kywertheim@protonmail.com)  
WEBSITE: <https://www.kywertheim.com>

Systems theorist with expertise in mathematical modelling, scientific computing, and machine learning. My major research interests lie in the broad field of systems biology, but I develop applications of artificial intelligence too. When I am not theorising, I advocate linguistic justice and teach yoga.

## SELECTED ACHIEVEMENTS TO DATE

---

- Published ten peer-reviewed articles in immunology, oncology, developmental biology, cancer biology, medicinal chemistry, and tissue engineering.
- Built the first multicellular model of neuroblastoma.
- Devised a multi-approach and multi-scale method to model the immune system.
- Proposed a theory about the chemical basis of lymphangiogenesis.
- Awarded the International Intellectual Benefits to Society Award by Mensa Foundation.
- Awarded over 120k GBP to fund my education and research on five continents.

## EDUCATION

---

FEB 2017	<b>PhD, BIOENGINEERING, University of Southampton, the UK</b> Thesis title: <i>Mathematical Modelling of Lymphangiogenesis</i>
DEC 2013	<b>MS, CHEMICAL ENGINEERING, Columbia University, the USA</b> GPA: 3.60/4.00
JUN 2012	<b>MEng, CHEMICAL ENGINEERING, Imperial College London, the UK</b> First-class honours
JUN 2011	<b>Exchange Year, CHEMICAL ENGINEERING, University of Sydney, Australia</b> First-class honours
MAY 2008	<b>International Baccalaureate (IB), Sevenoaks School, the UK</b> IB score: 44/45

## CERTIFICATES

---

DEC 2023	INTRODUCTION TO COMPUTER VISION, <b>Udacity</b>
OCT 2023	BUILDING GENERATIVE ADVERSARIAL NETWORKS, <b>Udacity</b>
OCT 2023	200-HOUR YOGA TEACHER TRAINING, <b>Yoga Alliance Professionals, the UK</b>
AUG 2023	NATURAL LANGUAGE PROCESSING SPECIALISATION, <b>DeepLearning.AI, the USA</b>
SEP 2021	GENOMIC DATA SCIENCE SPECIALISATION, <b>Johns Hopkins University, the USA</b>
NOV 2018	MACHINE LEARNING ENGINEER NANODEGREE, <b>Udacity</b>
SEP 2017	WHOLE-CELL MODELLING, <b>Centre for Regulatory Genomics, Spain</b>

## MAJOR SKILLS

---

### Modelling Frameworks

Ordinary differential equations, partial differential equations, Boolean networks, constraint-based modelling, agent-based modelling, cellular automata, and stochastic processes.

### Scientific Computing

Finite element method, linear programming, dynamic programming, genetic algorithms, Monte Carlo methods, and multicellular simulation.

### Artificial Intelligence and Data Science

Regression, classification, clustering, dimensionality reduction, association rule learning, deep learning, generative AI, natural language processing, computer vision, and hypothesis testing.

### Computer Skills

Python, MATLAB, R, C++, LaTeX, COMSOL, Git, Linux, and high-performance computing.

### Languages

English (5/5), Cantonese (4/5), Mandarin (3/5), Toki Pona (3/5), and German (2/5).

## RESEARCH AND DEVELOPMENT EXPERIENCE

JAN 2023 Now	<p><b>Principal Investigator</b>, UNIVERSITY OF HULL, the UK</p> <p><i>Systems Biology</i></p> <ol style="list-style-type: none"> <li>1. Conceived a project about evolutionary therapy for high-risk neuroblastoma.</li> <li>2. Established collaborations with Dr Sabine Taschner-Mandl from St. Anna Children's Cancer Research Institute in Austria, Dr Giordano Pula from Hull York Medical School, and Dr Matishalin Patel from my department.</li> <li>3. Supervising a PhD candidate (Francesca Covell).</li> </ol> <p><i>Artificial Intelligence and Data Science</i></p> <ol style="list-style-type: none"> <li>1. Proposed and/or supervised 26 MSc dissertation projects, including collaborative projects with the NHS.</li> <li>2. Healthcare, sport science, platelet proteomics, fintech, optical character recognition, natural language processing, image captioning, dysarthric speech recognition, multi-modal sentiment analysis, and optimisation.</li> <li>3. Co-supervising a PhD candidate (Gulraiz Khan) researching real-time 3D reconstruction from 2D human images.</li> </ol>
FEB 2019 JAN 2023	<p><b>Project Supervisor</b>, UNIVERSITY OF SHEFFIELD, the UK</p> <ol style="list-style-type: none"> <li>1. Conceived an independent research programme and secured funding.</li> <li>2. Established international collaborations with Dr Fabio Dercole from the Polytechnic University of Milan in Italy and Dr Sabine Taschner-Mandl from St. Anna Children's Cancer Research Institute in Austria.</li> <li>3. Supervised or co-supervised six undergraduates (Jack Ashurst, Abigail Barlow, Rory Deignan, Daniel Jordan, Ritvik Mehra, and Alvaro Andre Yupanqui Rivera), one master's student (Melody Parker), and one PhD candidate (Matteo Italia).</li> <li>4. Optimised chemotherapy for neuroblastoma based on evolutionary principles.</li> <li>5. Proposed a theoretical solution to the MYCN enigma based on the ARF/MDM2/p53 axis.</li> <li>6. Modelled intracellular mechanisms regulating neural crest development.</li> <li>7. Ordinary differential equations, genetic algorithm, Apriori algorithm, probabilistic Boolean networks, and Tarjan's strongly connected components algorithm.</li> </ol>
FEB 2019 JAN 2023	<p><b>Computational Oncologist</b>, UNIVERSITY OF SHEFFIELD, the UK</p> <p><i>Supervisor: Dr. Dawn Walker</i></p> <ol style="list-style-type: none"> <li>1. Predictive <i>in Silico</i> Multiscale Analytics to Support Cancer Personalised Diagnosis and Prognosis, Empowered by Imaging Biomarkers (PRIMAGE). 10 million-euro Horizon 2020 project involving 16 institutions from eight countries.</li> <li>2. Built the first multicellular model of neuroblastoma. Built surrogate models by multiple linear regression and deep learning.</li> <li>3. GPU-accelerated virtual drug trials on the Bessemer high-performance computing cluster to propose an unconventional therapy based on targeting p53's regulators.</li> <li>4. Collaborated with the University of Zaragoza, University of Bologna, and Chemotargets SL to integrate my model with their organ-scale and single-cell models with a new scale separation approach.</li> <li>5. Co-supervised an undergraduate student (Will Shaw) who reviewed the literature about diffuse intrinsic pontine glioma (DIPG).</li> <li>6. Supervised an undergraduate student (Luke Jones) who modelled DIPG's clonal evolution and invasive spread in a biological lattice-gas cellular automaton.</li> <li>7. Other techniques: Latin hypercube sampling, dimensionality reduction, clustering, and hypothesis testing.</li> </ol>
MAR 2017 JAN 2019	<p><b>Computational Biologist</b>, UNI. OF NEBRASKA-LINCOLN, the USA</p> <p><i>Supervisor: Prof. Tomas Helikar</i></p> <ol style="list-style-type: none"> <li>1. Built a multiscale and compartmental model of CD4+ T lymphocytes by using agent-based modelling, Boolean networks, constraint-based modelling, and ordinary differential equations.</li> <li>2. Wrote a simulation algorithm and predicted switch-like and oscillatory behaviours for CD4+ T lymphocytes from the results. Monte Carlo method, Kolmogorov-Smirnov test, linear programming, and finite difference method.</li> <li>3. Added more agent types to the model, including neutrophils, macrophages, dendritic cells, basophils, and CD8+ T lymphocytes.</li> <li>4. Supervised two PhD candidates (Aimee Kessell and Sydney Townsend) and three undergraduate students (Alyssa La Fleur, Robert Moore, and Bailee Lichter).</li> </ol>

## RESEARCH AND DEVELOPMENT EXPERIENCE (CONTINUED)

FEB 2014	<b>PhD Candidate</b> , UNIVERSITY OF SOUTHAMPTON, the UK
FEB 2017	<p><i>Supervisor: Prof. Tiina Roose</i></p> <ol style="list-style-type: none"> <li>1. Constructed a reaction-diffusion-convection model; its 15 partial and ordinary differential equations describe the dynamics of VEGFC, MMP2, TIMP2, collagen I, and MT1-MMP in the zebrafish embryo. Computer simulations in COMSOL (finite element method).</li> <li>2. Simplified the model to four equations and wrote an algorithm to sample the parametric space to perform Turing pattern analysis.</li> <li>3. Proposed a theory about the chemical basis of lymphangiogenesis.</li> </ol>
SEP 2012	<b>Graduate Research Assistant</b> , COLUMBIA UNIVERSITY, the USA
DEC 2013	<p><i>Molecular Simulation of Nucleosomes</i></p> <p><i>Supervisor: Dr. Vanessa Ortiz</i></p> <p>Helped a senior colleague study the effects of DNA methylation on nucleosome formation. MD simulations and alchemical FEP calculations in NAMD. TCL scripting.</p> <p><i>Image and Quantitative Analysis of SNARE-Mediated Membrane Fusion</i></p> <p><i>Supervisors: Prof. Ben O'Shaughnessy and Dr. Ben Stratton</i></p> <p>Used Speckle TrackerJ (ImageJ plugin) to analyse TIRFM images of SNARE-mediated membrane fusion in a microfluidic setup.</p>
OCT 2011	<b>MEng Student</b> , IMPERIAL COLLEGE LONDON, the UK
DEC 2011	<p><i>Supervisor: Prof. Cleo Kontoravdi</i></p> <p>Used ordinary differential equations to model the unfolded protein response. Ran gPROMS-aided computer simulations of the progression of Alzheimer's disease.</p>
JUL 2011	<b>IAESTE Intern</b> , UNIVERSIDAD NACIONAL DE LA PLATA, Argentina
SEP 2011	<p><i>Supervisors: Prof. Eduardo Castro, Prof. Pablo Duchowicz, Dr. Andrew Mercader</i></p> <p>Built 10 QSAR models by multiple linear regression to predict the activities of tacrine-related acetylcholinesterase inhibitors in the treatment of Alzheimer's disease.</p>
NOV 2010	<b>Intern</b> , UNIVERSITY OF SYDNEY, Australia
MAR 2011	<p><i>Supervisors: Prof. Hala Zreiqat and Dr. Iman Roohani</i></p> <p>Prepared strontium-doped magnesium silicate scaffolds for bone tissue engineering and characterised them by X-ray diffraction.</p>

## TEACHING EXPERIENCE

JAN 2023	<b>Lecturer</b> , UNIVERSITY OF HULL, the UK
Now	<p><i>MSc Artificial Intelligence and Data Science</i></p> <ol style="list-style-type: none"> <li>1. This fast-track conversion course allows graduates from all academic backgrounds to launch a career in artificial intelligence (AI) and data science.</li> <li>2. Taught Applied AI (Summer 2023 and Spring 2024). Traditional machine learning, deep learning, supervised and unsupervised learning, computer vision, and natural language processing.</li> <li>3. Gave guest lectures on cancer modelling in Research and Application in AI and Data Science (Spring 2023, Summer 2023, and Spring 2024).</li> <li>4. Provided support to 35 personal supervisees in their personal, academic, and professional development.</li> </ol>
MAY 2021	<p><b>Guest Lecturer</b>, UNIVERSITY OF SHEFFIELD, the UK</p> <p>Proposed the addition of an introductory lecture on partial differential equations to Modelling and Simulation of Natural Systems. Independently designed and delivered the lecture to around 100 undergraduate and master's students.</p>
SEP 2014	<b>Demonstrator</b> , UNIVERSITY OF SOUTHAMPTON, the UK
FEB 2017	<p><i>Design and Computing</i></p> <ol style="list-style-type: none"> <li>1. Tutored around 450 first-year undergraduate students in Python programming and basic numerical methods in computer lab sessions.</li> <li>2. Provided continuous feedback to around 100 first-year undergraduate students who designed and built launchers in two weeks.</li> </ol> <p><i>Thermofluids</i></p> <ol style="list-style-type: none"> <li>1. Two-semester introductory course in thermodynamics and fluid mechanics for around 500 first-year undergraduate students.</li> <li>2. Demonstrated four experiments about drag forces, ideal gas properties, thermodynamic cycles, and hydrostatic forces.</li> <li>3. Marked and provided feedback on problem sheets and lab reports.</li> </ol>

## TEACHING EXPERIENCE (CONTINUED)

SEP 2012	<b>Teaching Assistant, COLUMBIA UNIVERSITY, the USA</b>
DEC 2013	<b><i>Analysis of Chemical Engineering Problems I</i></b> <ol style="list-style-type: none"> <li>1. Python-based course about numerical methods for 60 chemical engineering juniors.</li> <li>2. Held office hours and tutored the students in computer lab sessions. Prepared code for assignment solutions and graded assignments.</li> </ol> <b><i>Chemical Engineering Laboratory</i></b> <p>Demonstrated how to separate ammonia from air in a packed bed absorption column to 31 chemical engineering seniors.</p> <b><i>Transport Phenomena I</i></b> <p>Theoretical course about momentum and energy transport for 60 chemical engineering juniors. Held office hours, recitations, revision lectures, and graded assignments.</p>

## OTHER EXPERIENCE

NOV 2023	<b>Yoga Teacher, YOGA PONA</b>
NOW	<ol style="list-style-type: none"> <li>1. Set up a yoga business and branded it with its own name and logo.</li> <li>2. Designed and built a website. Prepared other promotional materials.</li> <li>3. Planned and taught <i>vinyasa</i> yoga classes.</li> </ol>
JAN 2023	<b>EDI Champion, UNIVERSITY OF HULL, the UK</b>
NOW	<ol style="list-style-type: none"> <li>1. Represent the department at the faculty level.</li> <li>2. Raise awareness of equality, diversity, and inclusion (EDI) issues and activities in the department. Offer practical EDI advice as required.</li> <li>3. Gave seminar talks about linguistic justice and microaggressions.</li> </ol>
JAN 2023	<b>Mentor, IMPERIAL COLLEGE LONDON, the UK</b>
NOW	<ol style="list-style-type: none"> <li>1. Imperial College Careers Service's Alumni Mentoring Scheme. The scheme supports the development of student employability and encourages the networking propensity of students from underrepresented groups.</li> <li>2. Activate Student Mentoring Programme. Established as a part of Imperial College London's 2021 Race Equality Charter Action Plan to support PhD students of BAME heritage and Presidential Scholars at the undergraduate and master's levels.</li> </ol>
JAN 2018	<b>Reviewer</b>
NOW	<ol style="list-style-type: none"> <li>1. Uni. of Nebraska-Lincoln. Selection committee of the Undergraduate Creative Activities and Research Experiences (UCARE) programme in 2018. Evaluation panel at the Institute for International Teaching Assistants in 2018.</li> <li>2. Uni. of Hull. Hull York Medical School's faculty selection panel in 2023 and Faculty of Science and Engineering's Ethics Committee in 2024.</li> <li>3. I have reviewed original research articles for the <i>Journal of Applied Physiology</i> and <i>IEEE Transactions on Biomedical Engineering</i>.</li> </ol>
NOV 2020	<b>Alumni Representative Committee Member, COLUMBIA UNI., the USA</b>
FEB 2023	Interviewed 24 undergraduate applicants from different ethnic, socioeconomic, and academic backgrounds.
OCT 2020	<b>EDI Committee Member, UNIVERSITY OF SHEFFIELD, the UK</b>
SEP 2022	<ol style="list-style-type: none"> <li>1. Researcher representative on the Department of Computer Science's EDI Committee.</li> <li>2. Represented the department in the Faculty of Engineering's working group on race.</li> <li>3. Contributed to discussions in EDI working groups and an anti-racism reading group.</li> <li>4. Invited Siena Castellon, an internationally recognised neurodiversity advocate, to give a Women+@DCS seminar in January 2021.</li> <li>5. Helped organise the biennial departmental EDI survey in May 2021 and a summer project to design an inclusive undergraduate curriculum in 2021.</li> <li>6. Department renewed its Athena SWAN Silver Award for five years in September 2021.</li> </ol>
JAN 2017	<b>Faculty Tour Guide, UNIVERSITY OF SOUTHAMPTON, the UK</b>
	Led guided tours of the engineering buildings for incoming students and visitors.
AUG 2008	<b>Office Clerk, K.C. HO AND FONG SOLICITORS AND NOTARIES, Hong Kong</b>
SEP 2008	<ol style="list-style-type: none"> <li>1. Translation of legal documents from Standard Chinese to English.</li> <li>2. Essential office tasks such as photocopying, scanning, and printing documents.</li> </ol>
MAY 2008	<b>Catering Assistant, SEVENOAKS SCHOOL, the UK</b>
	<ol style="list-style-type: none"> <li>1. Not impressed by what I had experienced and witnessed at this registered charity, I joined the catering department to make a statement about educational injustice.</li> <li>2. Served food and cleaned the dining hall after meals.</li> </ol>

## OTHER EXPERIENCE (CONTINUED)

JUL 2007	<b>Laboratory Technician</b> , CHINESE UNIVERSITY OF HONG KONG, HK
AUG 2007	<i>Supervisors: Prof. Henry N.C. Wong and Dr. Sam C.K. Hau</i> Assisted in labour-intensive and hands-on tasks related to organic synthesis.
SEP 2006	<b>Gardener</b> , SEVENOAKS SCHOOL, the UK
JUN 2007	I made over gardens on campus.

## JOURNAL ARTICLES

1. Borau, C., **Wertheim, K.Y.**, Hervás-Raluy, S., Sainz-DeMena, D., Walker, D., Chisholm, R., Richmond, P., Varella, V., Viceconti, M., Montero, A., Gregori-Puigjané, E., Mestres, J., Kasztelnik, M., and Garcia-Aznar, J.M., 2023. ## HONOURS AND AWARDS

---

FEB 2024	Fellowship of Higher Education Academy (FHEA), Advance HE
OCT 2022	Recognition as an outstanding postdoc, University of Sheffield
JUL 2022	Departmental Recognition Award, University of Sheffield (£125)
MAY 2022	Sheffield Undergraduate Research Experience Scheme Bursary, University of Sheffield (£1,250)
JUL 2020	International Intellectual Benefits to Society Award, Mensa Foundation
MAY 2020	Engineering Researcher Society Development Opportunity Fund, University of Sheffield (£250)
2019–22	Insigneo Summer Research Grant, University of Sheffield (£7,700)
JUL 2018	Open U1600 Section Champion, 2018 Cornhusker State Games: Chess
JUN 2018	Travel fellowship for the 26th Conference on Intelligent Systems for Molecular Biology (US\$ 750)
SEP 2017	Travel grant for the 2017 Whole-Cell Modelling Summer School (US\$ 1,000)
MAR 2015	Conference bursary for the British Applied Mathematics Colloquium 2015 (£115)
JAN 2014	EPSRC studentship, University of Southampton: tuition, a budget, and a stipend (~£56,984)
FEB 2012	Departmental scholarship, Columbia University: tuition, fees, and a stipend (~US\$ 74,905)
JUL 2011	Research bursary, IAESTE Argentina (~US\$ 2,100)
JUL 2010	Exchange year tuition fee waiver, Imperial College London (~£11,200)
2007–08	Gold certificate, UK Senior Mathematical Challenge
2006–08	Science faculty, GlaxoSmithKline science, and mathematics prizes, Sevenoaks School
2006–07	Commendation in a science essay competition, Peterhouse, Cambridge

## TEST SCORES

---

OCT 2022	Cattell Culture Fair III A Intelligence Test: 157 (percentile rank: 99)
OCT 2022	Cattell III B Intelligence Test: 154 (percentile rank: 98)
JAN 2019	Mensa Wonderlic: 32 (percentile rank: 95)
JAN 2019	RAIT Quantitative Intelligence Index: 148 (percentile rank: 99)
JAN 2019	RAIT Total Battery Intelligence Index: 472 (percentile rank: 98)

## AFFILIATIONS

---

Member of Yoga Alliance Professionals since 2023.

Member of British Mensa since 2019.

Member of Society for Mathematical Biology since 2017.
